

SHRAWANI MEDANKAR

Full Stack Developer (MERN)

📞 +91-9919XXXXXX | 📩 user@gmail.com | 🌐 Pune, Maharashtra, India
LinkedIn: linkedin.com/in/user | GitHub: github.com/user | Portfolio

SKILLS

Frontend: HTML, CSS, JavaScript, React.js, Tailwind CSS

Backend: Node.js, Express.js

Database: MongoDB, MySQL

Tools, Platform: Git, Github

EDUCATION

MES Garware College of Commerce, Pune 2025
Bachelor of Computer Applications (BCA) GPA: 8.5 / 10

H.H.C.P. Junior College, Huzurpaga, Pune 30 2022
Higher Secondary Education (HSC)

St. Mira's School, Pune 2020
Secondary Education (SSC)

PROJECTS

Roamella – Property Rental Platform | Javascript, Node.js, Express.js, MongoDB, EJS, Bootstrap [Live Demo](#) | [Github](#)

- Queried and joined 3 sales-related tables covering over 25,000 rows across 12 months and 5 regions using optimized SQL joins to create consistent, analysis-ready datasets.
- Built 10 dynamic measures and KPIs in Power BI to track regional sales, return trends, and product performance.
- Designed multipage dashboards with slicers and filters, helping stakeholders drill down by region, product category, and time.
- Detected a 14% sales drop post-festival in the South region. Later, the insight was used for a marketing recovery plan.

Portfolio | React.js, Material UI (MUI), API Integration [Live Demo](#) | [Github](#)

- Developed a responsive React weather app that fetches real-time weather data from a public API. Implemented dynamic backgrounds based on temperature, humidity, and wind conditions. Features include city search, current temperature, humidity, wind speed, sunrise/sunset, and min/max temperature. Utilized React hooks (useState, useEffect) for state management and API calls.

Weather App | React.js, Material UI (MUI), API Integration [Live Demo](#) | [Github](#)

- Developed a responsive React weather app using Material UI that fetches real-time data from a public API.
- Implemented city search, detailed weather info (temperature, humidity, wind, sunrise/sunset, min/max) and dynamic backgrounds with smooth transitions.
- Used React Hooks (useState, useEffect) and deployed on Render with GitHub.

CERTIFICATIONS

- **Full Stack Web Development (MERN) Certificate – Apna College (2026):** Worked on dynamic and responsive user interfaces using React, developed secure and efficient backends with Node.js and Express, and managed databases with MongoDB. Built and integrated RESTful APIs, implemented authentication, authorization, and CRUD operations, while maintaining a clean MVC architecture for seamless frontend-backend integration.
