EDUCATION

MES Garware College (Autonomous), Pune <i>Bachelor of Business Administration (Computer Application) – BBA-CA</i>	2025 GPA: 8.5 / 10
H.H.C.P. Junior College, Huzurpaga, Pune <i>Higher Secondary Education (HSC)</i>	2022
St. Mira's School, Pune <i>Secondary Education (SSC)</i>	2020

SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools: Git, GitHub, Hoppscotch

PROJECTS

Roamella – Property Rental Platform | *JavaScript, Node.js, Express.js, MongoDB, EJS, Cloudinary* [Live Demo](#) | [GitHub](#)

- Developed a full-stack property rental platform with CRUD operations, browsing features, and category-based filtering using EJS templates.
- Built RESTful APIs for users, listings, and reviews using MVC architecture with MongoDB Atlas.
- Implemented secure authentication and role-based authorization with Passport.js, hashed passwords (PBKDF2), session management, and server-side validation.
- Designed a responsive UI with Bootstrap and integrated image uploads via Multer and Cloudinary.
- Deployed on Render for live access with dynamic listing views and seamless user experience.

Personal Portfolio Website | *React.js, CSS, EmailJS* [Live Demo](#) | [GitHub](#)

- Built a responsive personal portfolio using React.js, modern CSS, and React Router for seamless multi-page navigation.
- Integrated EmailJS to enable secure client-side contact form submissions with real-time email sending functionality.
- Designed modular and reusable React components to enhance scalability, maintainability, and code efficiency.
- Optimized website performance for fast loading and mobile responsiveness, and deployed the application on Render for live accessibility.

Weather App | *React.js, Material UI (MUI), API Integration* [Live Demo](#) | [GitHub](#)

- Developed a responsive weather application that fetches real-time weather data for any city worldwide.
- Displayed key weather details including temperature, humidity, wind speed, sunrise and sunset, and weather conditions.
- Implemented dynamic backgrounds based on weather and ensured mobile-friendly UI.
- Handled API errors with user-friendly messages for invalid inputs.

CERTIFICATIONS

- **Full Stack Web Development (MERN), 2026:** Completed MERN stack course covering React, Node.js, Express, MongoDB, REST APIs, and MVC architecture.
