SKILLS

Frontend: HTML5, CSS3, JavaScript, React.js, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, REST APIs

Database: MongoDB, MySQL

Tools: Git, GitHub, Hoppscotch

EDUCATION

MES Garware College, Pune 2025
Bachelor of Computer Applications (BCA) GPA: 8.5 / 10

H.H.C.P. Junior College, Huzurpaga, Pune 30 2022
Higher Secondary Education (HSC)

St. Mira's School, Pune 2020
Secondary Education (SSC)

PROJECTS

Roamella – Property Rental Platform Live Demo | GitHub

- **Tech Stack:** JavaScript, Node.js, Express.js, MongoDB, EJS, Bootstrap, Cloudinary.
- Developed CRUD functionality, browsing features, and category-based filtering using EJS templates.
- Built RESTful APIs for users, listings, and reviews using MVC architecture with MongoDB Atlas.
- Implemented secure authentication and role-based authorization with Passport.js, hashed passwords (PBKDF2), session management, and server-side validation.
- Designed responsive UI with Bootstrap and integrated image uploads via Multer and Cloudinary.
- Deployed on Render for live access with dynamic listing views and seamless user experience.

Portfolio | React.js, CSS, EmailJS Live Demo | GitHub

- Designed and developed a responsive personal portfolio using React.js and modern CSS to showcase projects and technical skills.
- Integrated EmailJS for secure client-side email functionality, enabling seamless contact form submissions without a backend.
- Built modular and reusable React components to improve scalability and maintainability.

Weather App | React.js, Material UI (MUI), API Integration Live Demo | GitHub

- Developed a responsive React weather app using Material UI that fetches real-time data from a public API.
- Implemented city search and detailed weather information (temperature, humidity, wind, sunrise/sunset, min/max) with dynamic backgrounds and smooth transitions.
- Used React Hooks (useState, useEffect) and deployed on Render with GitHub.

CERTIFICATIONS

- **Full Stack Web Development (MERN) (2026):** Built responsive React apps, developed REST APIs using Node.js and Express, and managed MongoDB with MVC architecture.
